Children & their endless queries  
with The Divine Mounts

Is Your Instrument Connected?

Are We Really Looked After By Higher Realms?

Tales of Hamsa Aunty!

Both Hamsa & Owly Aunties

In Conversation with Lioneel Uncle

# Is Your Instrument Connected?

Ganesh Ji

Ganesh Ji

Shh... He is resting...

Tell me - what do you want?

We call Him all the time...but He does not listen!

Oh! really? Tell me something, when you pick up the phone and cannot hear the dial tone...what do you understand of it?

Well.. we understand that the phone is dead and not connected ....so we call the technician to correct the situation...make the connection alright!

Similarly my dear child, you are not yet connected to the divine! And how to connect? Well, you will need to **awaken your Divine Primordial Energy (Kundalini Shakti)** to get the divine connection...only with the awakening of this divine element within you, can you enjoy the bliss of direct connection with Shri Ganesh Ji!...understood?

# Are We Really Looked After By Higher Realms? <sup>2</sup>

Mushak Raj

Mushak Raj

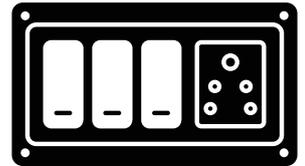

I heard you the first time you called me - why do you call multiple times...anyways - what it it?

Is it true that we all are connected to one divine source? Why can't we feel it?

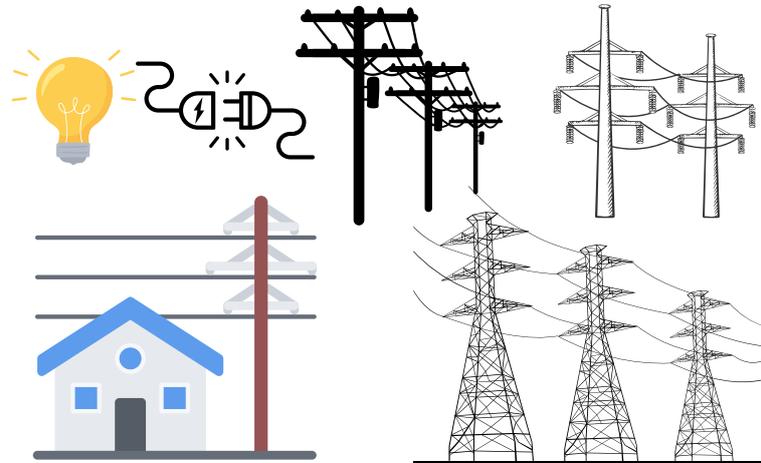

hmm...its quiet dark here...put on the light please..

wow! Look - the room is not dark anymore - what a miracle!!

Miracle? What's so miraculous about it?

Dear child! Just as humans have created a massive infrastructure to light a single bulb, and even a small fault can disrupt the power supply to entire neighborhoods, similarly, the divine has designed multiverses where everything is perfectly synchronized—without which the world would come to a halt! So now, do you still think you're just floating in mid-air, in a vacuum, with no connection to anything?

Hello Hamsa Aunty!

Hello dear children! What brings you all to me?!

You're so lucky! Mother Saraswati must be helping you with your exams....can you ask Her to help us also?

Of course - but that you can ask Her yourself also - just awaken Mother Saraswati within yourself! That's all!

What!?? Awaken Mother Saraswati within? But how is that even possible!?

With the help of your Subtle System! You just have to activate your dormant spiritual energies with pure devotion and that will energize your Swadhistan Chakra - then you will automatically become attentive to your studies, become more creative...

Really!? It that so easy..the way you make it sound!?

Yes! It is...tell me how does oxygen reach every corner of your body...or how does your food get digested in your stomach? If you are healthy - the body systems take care of it right? Similarly we have a subtle system that has to be awakened with pure desire & everything works out miraculously! Remember .. you are connecting with the divine power..what is impossible for the Almighty!?

# Both Hamsa & Owly Aunties

Hey! Look both Hamsa and Owly aunties are here - should we meet them..lets go.

Hello Hamsa and Owly aunty!

Hello children...you all look very happy and excited!

Yes! After all Sharad Navratri is nearing & we will all have so much fun!

Oh! So sweet of you all to be so happy to have us around!

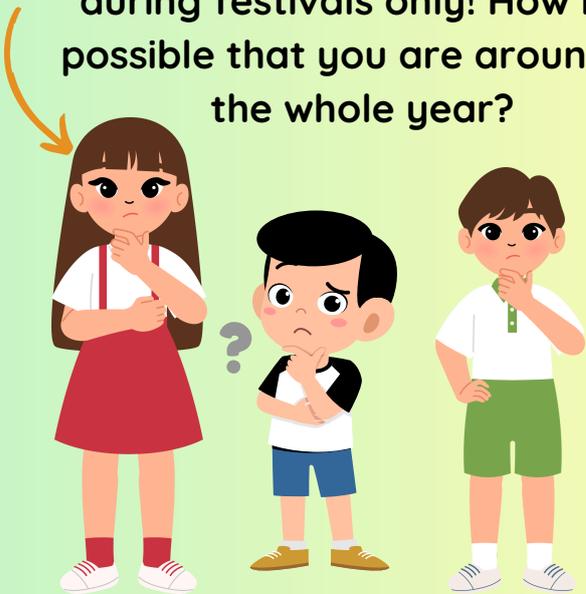

Are you both also  
as happy as we  
are!?

You must be aware...  
that we are always  
around huh!

But we celebrate your presence  
during festivals only! How is it  
possible that you are around us  
the whole year?

You only celebrate your birthdays  
once a year - does that mean you  
are not alive the rest of the year!?

Oh! So what do you all  
do by being around us!?

We watch you, your  
actions and reactions to  
different circumstances...

Does that make you happy?!

Are you all happy the rest of the days when there are no festivals?

hmm...sometimes we are happy but sometimes sad also!

What makes you all sad?

If we had lots of money then maybe we will all be happier....maybe you can help us in that Owly Aunt....please ask **Goddess Lakshmi** to give us lots of money! You are her favorite birdie after all!

Lots of money is already there - but sadly the money is not well utilized by humans!

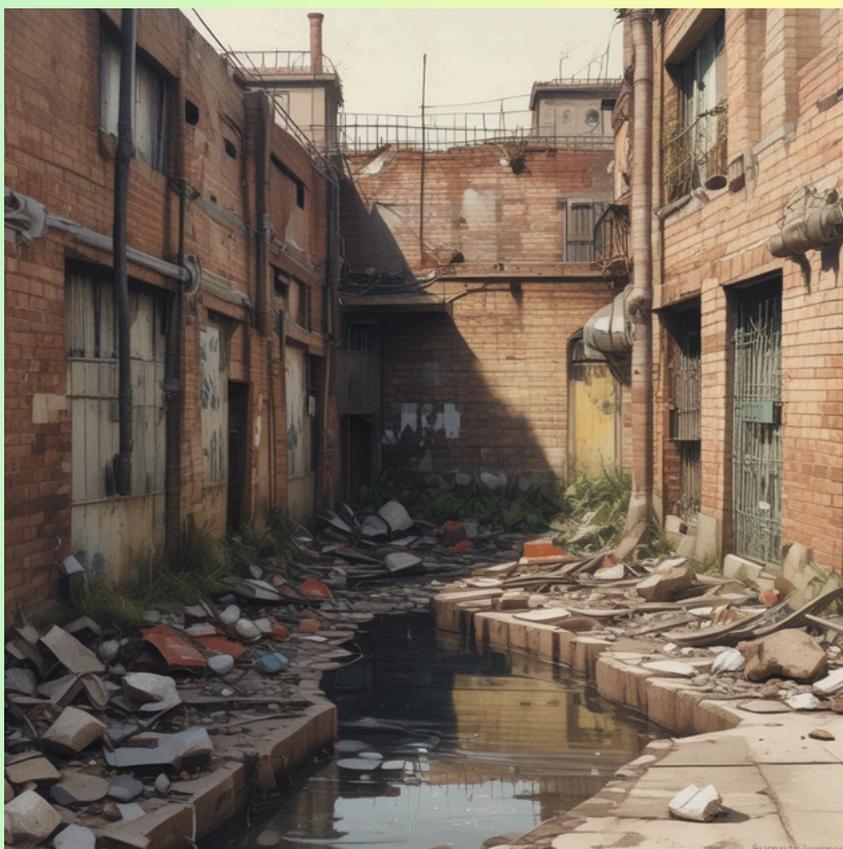

Really? How do we utilize it well?

oh! To begin with, at least the buildings of your schools should be good and well maintained! You all worship Goddess Saraswati and invite her to your assembly ground or hall daily.....and we see all dilapidated school buildings and leaky walls!

yeah - the amount of money these humans spend to celebrate 9 days of festival - my goodness! The same money could be utilized in maintaining the school buildings !

hmm - and why only school buildings? Even the residential areas where they live in! Drainage system is not in order - there is so much dirt all around!

Tell us children - have you not heard of this phrase 'Cleanliness is next to Godliness'?

Yes we have...we keep our rooms clean!

What about your surroundings? You step out everyday - the dirty environment will cause you harm!

So what can we do to make the Goddesses happy!?

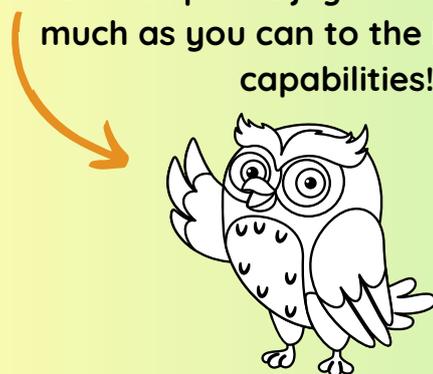

See ! This is the reason why Mother Lakshmi is not very happy with they way humans deal with their finances! They waste money on futile showy things!

- Begin with keeping yourself, your home and surroundings clean. Become aware, alert and attentive to what you choose to embrace in your life! Use your discretion by observing and gathering knowledge that one gains from everyday experience. Spread your wisdom far and wide.

Reach out to the needy and be generous with fellow humans who are struggling in this world because of falsehood, ignorance and greed! Mother Lakshmi will shower you with her blessings when you sincerely take care of the needs of others, your presence should be such that it brings peace upon others! Spread joy and happiness as much as you can to the best of your capabilities!

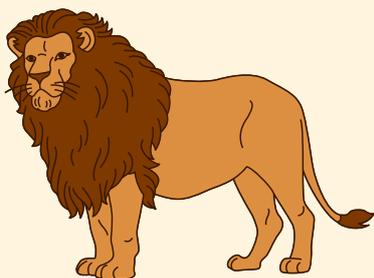

# In Conversation with Lioneel Uncle

Hello Uncle!

Hey Brave hearts! I am glad to see your fearlessness!

Fearlessness?  
Meaning?

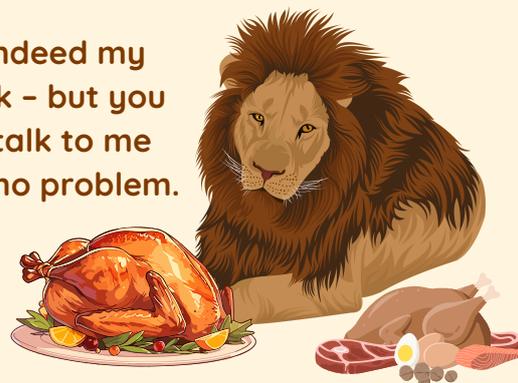

Well people are usually scared of me - for my ferocious looks and demeanor !

oh! Is it your lunch break hour?

yes, it is indeed my lunch break - but you guys can talk to me while I eat, no problem.

But you are eating meat!

err..yes, is that a problem?

During the festive season  
we do not eat meat...but  
you are eating!?

well, this is my staple food - I  
need to eat meat to be strong  
and healthy!

okay, can we also eat meat then?  
Since you accompany Goddess  
Durga and still eat meat then why  
can't we eat too?

Who has stopped you from eating  
meat dear children? Meat is an  
important source of protein - one  
needs it for strong muscles!

We have other sources of  
plant based proteins also,  
so we eat that.

Fine, suit yourself.

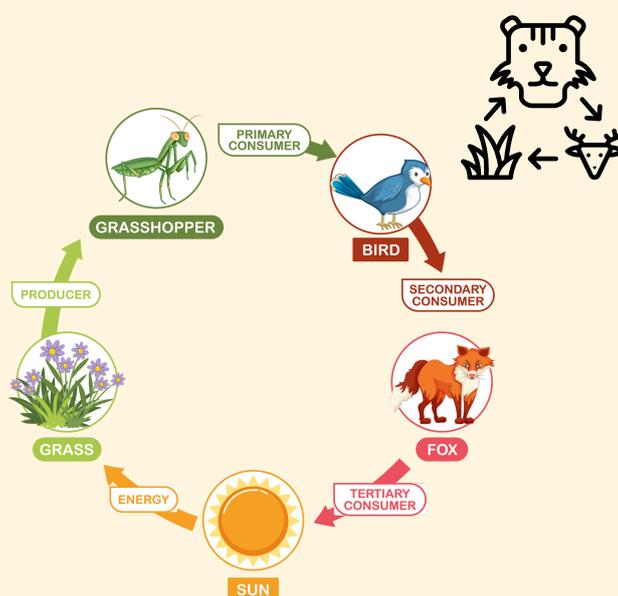

But is it not a sin to eat meat?

Sin? Why? Have you not read about Food chain and food web concepts in your school? Do you mean to say that all living beings who eat meat are sinners!?

That is what we are told...if we eat meat, Gods will be displeased and punish us!

How can you even entertain such concepts?! What about humans who live in deserts where growing vegetables is very difficult - they have to depend on hunting and surviving on animal protein! Most of your ancestors, early-men - they all hunted and survived on meat - if they had been sinning - then do you think you all would have been here talking to me? Your ancestors would have all been burnt to death - since they were sinning!

So it is not a sin to eat  
meat?

Well, try to consume meat of animals  
smaller in size than yours...large sized  
animals are not good for the human  
digestive system.

But you eat large sized animals...we  
have seen it on Animal Planet!

Dear ones ! my digestive system is a lot  
different than yours, so I can have any  
type of meat - in fact uncooked meat  
also - but you are humans - you will  
obviously have to cook food and eat!

- Well, we fast during festivals - so  
there is not controversy about veg  
or non-veg food! Gods will be very  
much pleased with us.

So parents don't celebrate your  
birthdays? Like bake a cake or  
make some sweet dish ....

Of course they do, we invite our friends over also and we all celebrate!

Like a festival huh? A celebration..

Yes, we enjoy a lot and eat a lot also...different items!

So why fast on a festive day? Esp. when it is a special day dedicated to the Gods - you should all celebrate by eating different items, dancing, singing .. isn't it?

Will Gods not be angry with us then?

Do your parents get angry at you when you enjoy and eat good food?

Of course not! They prepare everything for us to enjoy!

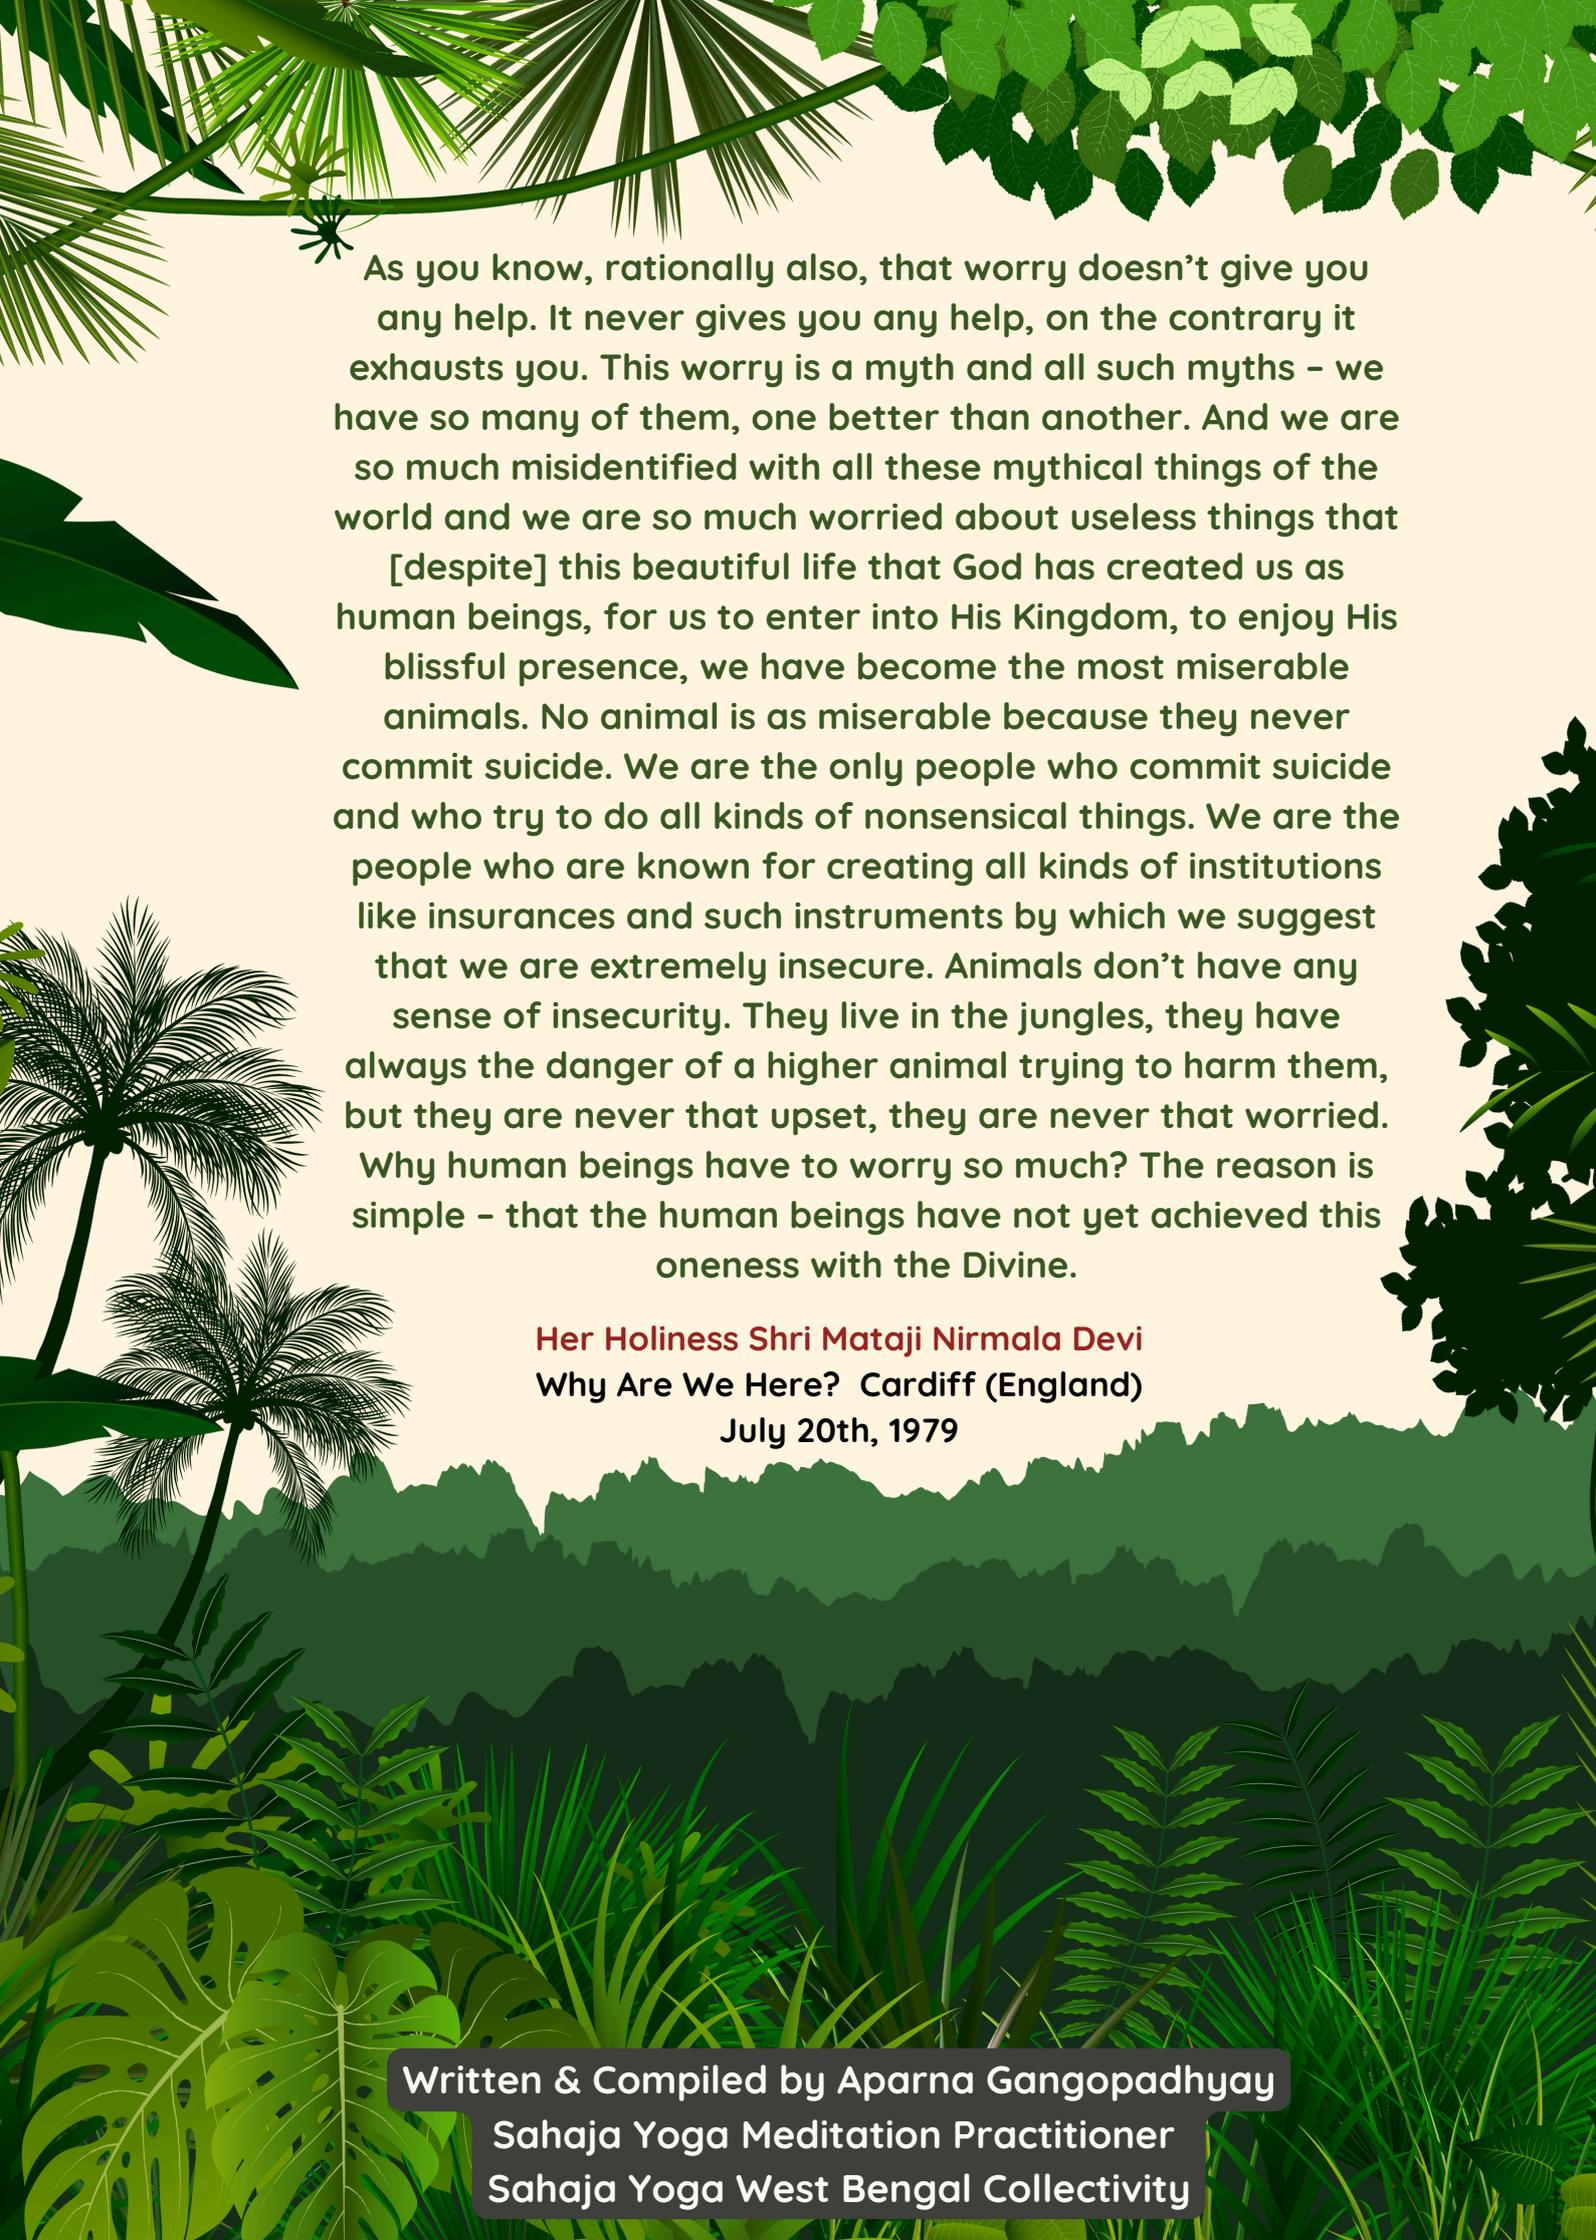

Similarly my dear children - God has given you a life to celebrate, enjoy and be happy! Do not hold on to silly superstitions that meat eaters are sinners or fasting on festivals is a very pious thing to do! You can fast for health reasons - give rest to your liver so that it can heal itself if you overeat...but fasting will please God and you will be rewarded for the same is pretty silly!

Then how are Gods pleased?

With Good words, Good Deeds and Good thoughts! Keep it simple. Live and let live. Respect self and others.

As you know, rationally also, that worry doesn't give you any help. It never gives you any help, on the contrary it exhausts you. This worry is a myth and all such myths - we have so many of them, one better than another. And we are so much misidentified with all these mythical things of the world and we are so much worried about useless things that [despite] this beautiful life that God has created us as human beings, for us to enter into His Kingdom, to enjoy His blissful presence, we have become the most miserable animals. No animal is as miserable because they never commit suicide. We are the only people who commit suicide and who try to do all kinds of nonsensical things. We are the people who are known for creating all kinds of institutions like insurances and such instruments by which we suggest that we are extremely insecure. Animals don't have any sense of insecurity. They live in the jungles, they have always the danger of a higher animal trying to harm them, but they are never that upset, they are never that worried. Why human beings have to worry so much? The reason is simple - that the human beings have not yet achieved this oneness with the Divine.
